Message: was to me a little too Alternative sounding to play at a club, but I can see Europe jumping on this mix! The final mix, the DJ Grow Mix, went nowhere. Nothing but beats and noise to my ears. Any underground club in a big city would like this mix, but overall the dance mixes were too dubby and underground for my taste. A Ralphi Rosario type mix would be ideal, maybe in the part 2 remix package? I enjoyed the hip-hop mix the best, although I play primarily House. Thanks for letting me preview this!

Message: Just got done listening to all mixes of Arnold G ft. Jezda \"You Got Me Hot\". The hip-hop mix, I liked! The synths are addicting! The big question is, will CHR or Rhythmic stations jump on this mix? Hopefully! The Sharp & Smooth Funky Mix wasn't bad (all the dance mixes to me aren't quite my style, where's a tribal mix?).

I was a little on the short side with minimal vocals, nonetheless an addicting mix in the same vein as a Robbie Rivera or Benny Benassi mix. The Sharp & Smooth Groovy Mix...
